MVN TIMES
SENIOR-WING EDITION - III
OCT-DEC 2022

Where education takes another step, every day, every year.

THE COUNSELLOR'S DESK

The COMEBACK is always greater than the SETBACK

Dear Parent/Student

A year end is a good time to think and re-think about the what, where and why of our life. We all start our new year with a lot of positivity and planning but the year may or may not unfold the way we want. The reasons for this mismatch most of the time are not so obvious and are in fact very subtle and can easily get ignored. Without this awareness, we repeat the same pattern every year. Let this year be a different one. Take a pause and ask yourself some straight questions and take in some straight answers.

This year -

1. Have you put effort where you wanted to? The way you wanted to? (ex Academics, Friendships, self learning etc.)

2. What you learnt this year about yourself the hard way? (Ex: I procrastinate, I get agitated easily, I have no genuine friends, etc.)

3. Have you got results according to your expectations? If not, why?

4. Is there a way to do things differently from what you have done so far?

The comeback is always greater than the setback. Setback is the end of the task you were engaged in where you may have already exhausted yourself both physically & mentally. Comeback is an event where you prepare yourself to walk again on the same path but with a new strategy. Comebacks are always accompanied with lessons from previous mistakes. When we get a setback, we may lose hope and choose the easy way to stop even thinking about trying again; most of us think like this. But we may think of a comeback by trying it a few more times to finally get what we always want.

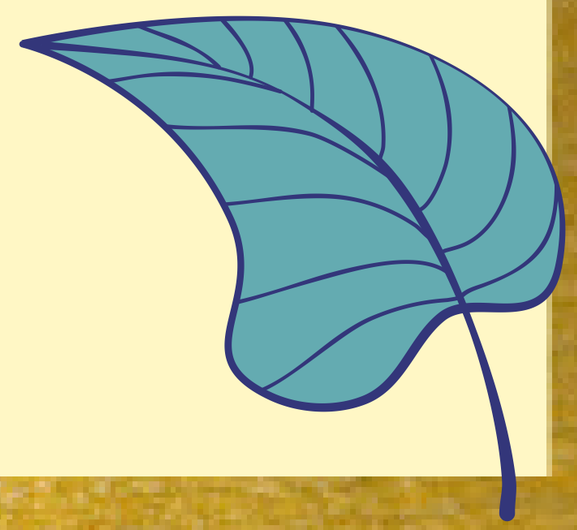
Sometimes when we feel things are falling apart, they are actually falling into place. A ball bounces back very high if shot with force towards ground. Always Remember - Higher the setback, stronger the comeback. Make your today a marginally better than your yesterday and the year will turn out as per your expectations.

May this New Year 2023 be your year of COMEBACK!

With best wishes,

ARCHANA BAPAT

COUNSELLOR



PERSEVERANCE

"It always seems impossible until it's done."

Dear Parent/Student

Everyone strives to achieve and accomplish the desired objective in order to be successful in life. Success can be attained by hard work and perseverance.

The power to turn obstacles into opportunity, the ability to forge ahead despite setbacks that threaten to undermine all efforts to succeed is the virtue of perseverance.

The quality of perseverance can be developed with regular practice and hard work combined with an indomitable spirit to remain focused on the goal till success is attained.

Thomas Edison had made 1000 unsuccessful attempts at inventing the light bulb.

Nelson Mandela also had to walk the long road to freedom against apartheid. Our former President, Dr. Abdul Kalam whose enthusiasm and passion for hard work proved infectious for many scientists and engineers at the Indian Space Research organization (ISRO) too was one among the many resilient people who overcame failure to achieve huge success.

So dear students

"When faced with obstacles around every turn
You must be steadfast on what you yearn
Success you will surely find
When you persevere and remain focused in your mind."

-भूविजय से हृदय विजय की ओर

"A great land of peace and wisdom
That saw the rise of empires and kingdoms
With acts of conceit and deceit
The history of India is replete.
Many cultures were also embraced
With love and tolerance, they were laced.
But only one after victory decided to retreat
MVN celebrated Ashoka's glory and charisma
For whom truth, non violence, tolerance was no enigma."

Annual Day marks the time for celebration and recognition of the students' and school's achievements. It provides an opportunity for the students to show their talent and yield the result of the hard work and diligence that they have put in the academic year. MVNites (Classes VI - X) brought to life the immortal saga of ASHOKA - THE GREAT, third emperor of Mauryan Dynasty, who renounced all war and shunned violence as realization dawned upon him that the true conquest is of hearts, for glory and felicity come on the wings of peace and love.

The event was graced by the benign presence of Mr. Shreshth Tayal, Assistant Commissioner of Income Tax, also an alumnus of school as the Chief Guest. Mr. J.P Gaur, Director MVN Schools, Mr. Prafull Kumar Agarwal, Academic Director, MVN Schools, Ms. Agalya Venkatesh, Principal MVN Sector-17, Ms. Neeta Arora, Principal MVN Aravali Hills, Ms. Vibha Mendiratta, Principal MVN Sector-88, Ms. Mona Dua, Vice Principal MVN Aravalli Hills also lent grace to the occasion with their presence.

The Principal, Ms. Agalya Venkatesh welcomed the distinguished guests and she inspired the parents and students by telling how Ashoka's trajectory of self-reformation from a blood-thirsty tyrant to a compassionate ruler is studded with inspiration for modern Indians.

The Chief Guest, in his speech, motivated the students to work to their full potential until they realise their objectives. He highlighted that MVN family is nurturing young minds and showing them the right direction, for the last several years and thanked the parents, teachers and mentors as they play an important role in the child's overall personality growth and development.

The students keenly participated in the cultural performances. The event captured jaw-dropping dance performances, spectacular plays and several other cultural performances which brought forth the talent of the students. Children, in colourful costumes with bright makeup, added to the exhilaration of the evening. Through their performances the students conveyed the message that true glory lies in winning hearts and not conquering lands. The exhilarating evening came to an end with the coordinators Ms. Manika Girdhar and Ms. Tanu Khatter exhorting the students for their wonderful performances and encouraging them to always give their best, be it studies or co-curricular activities.

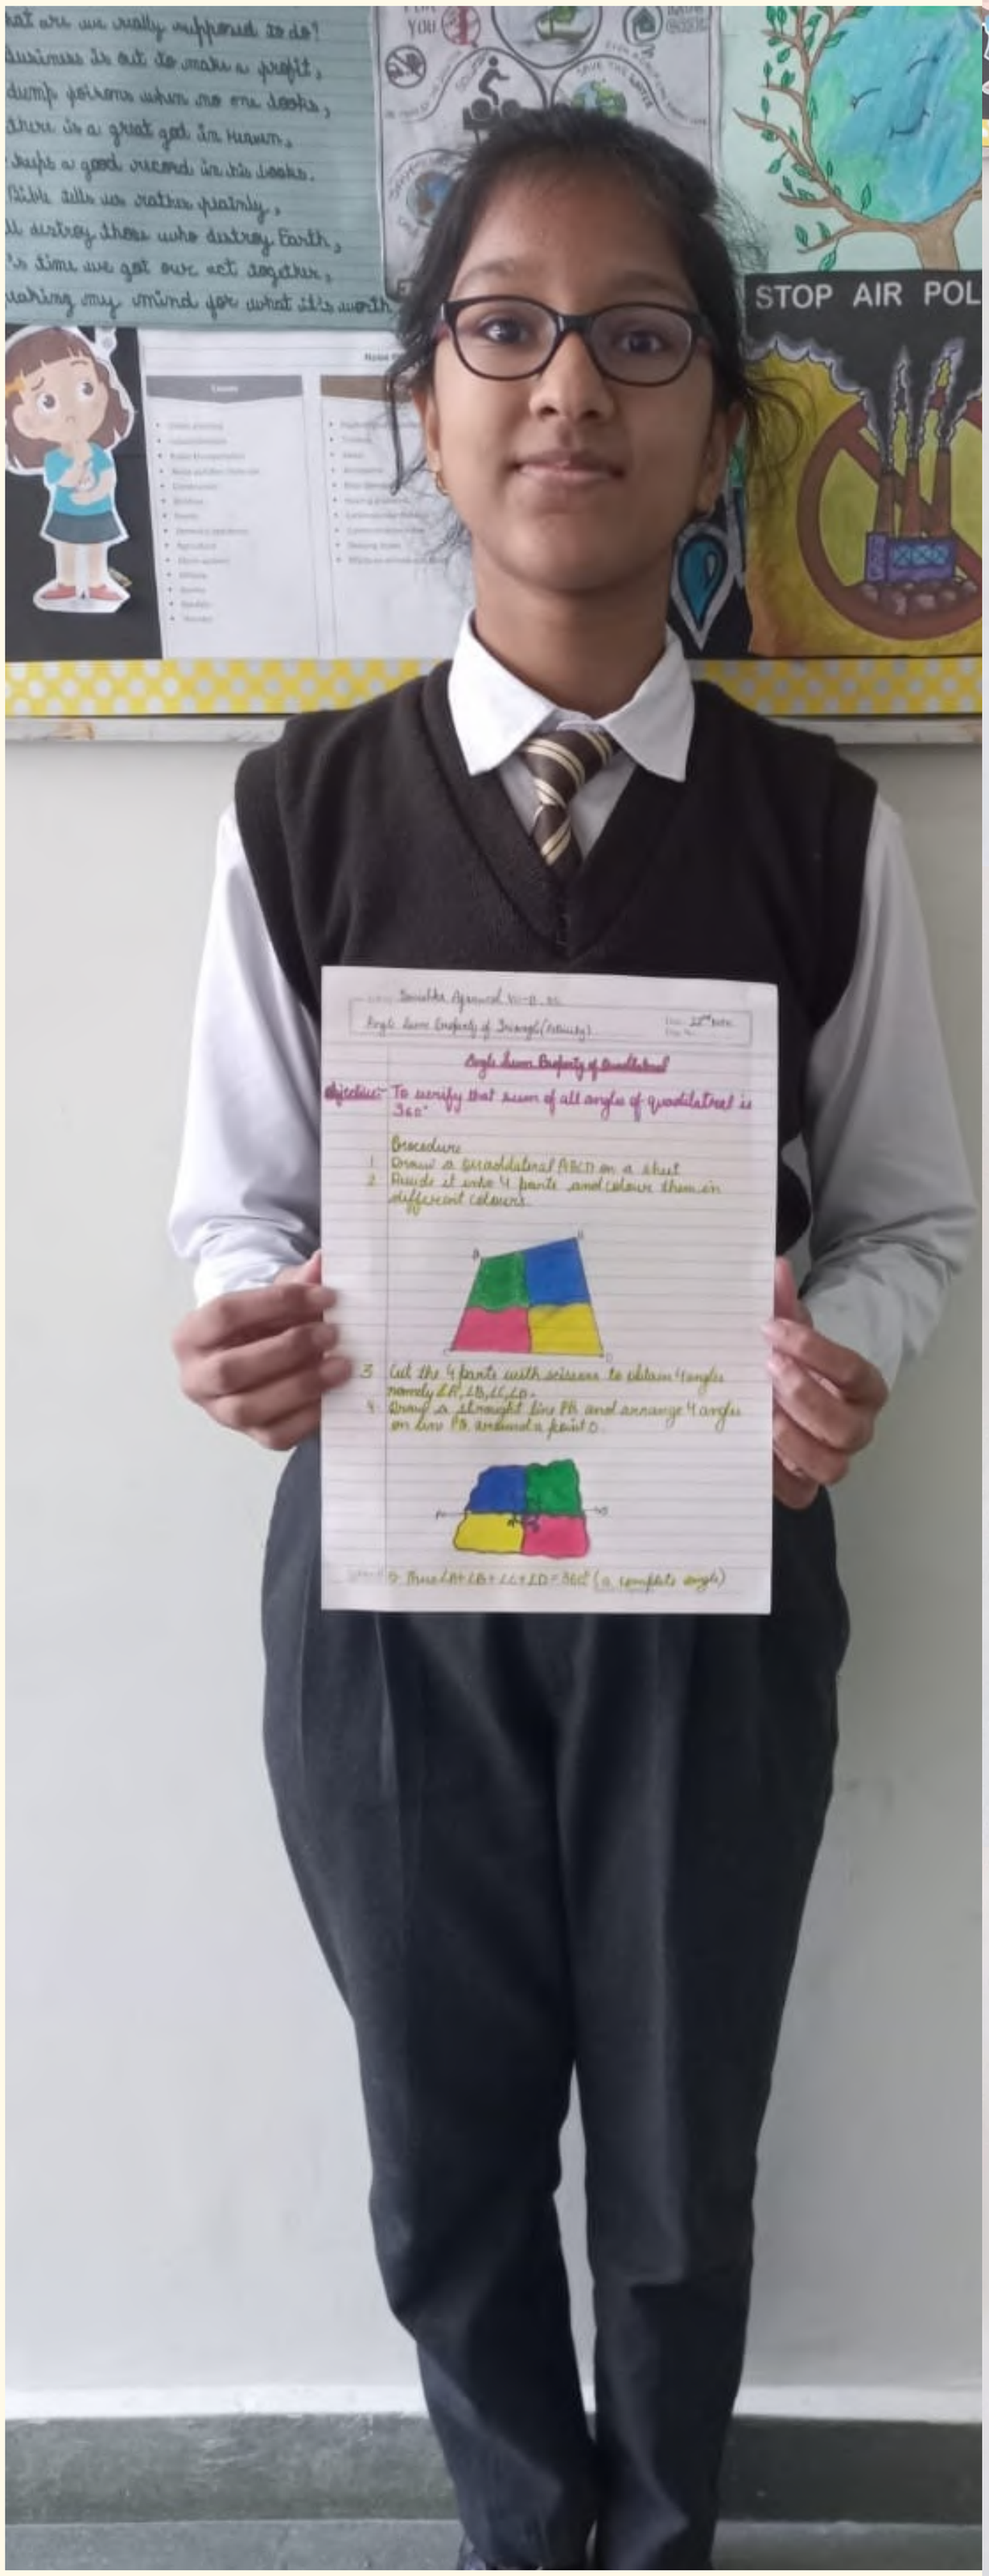
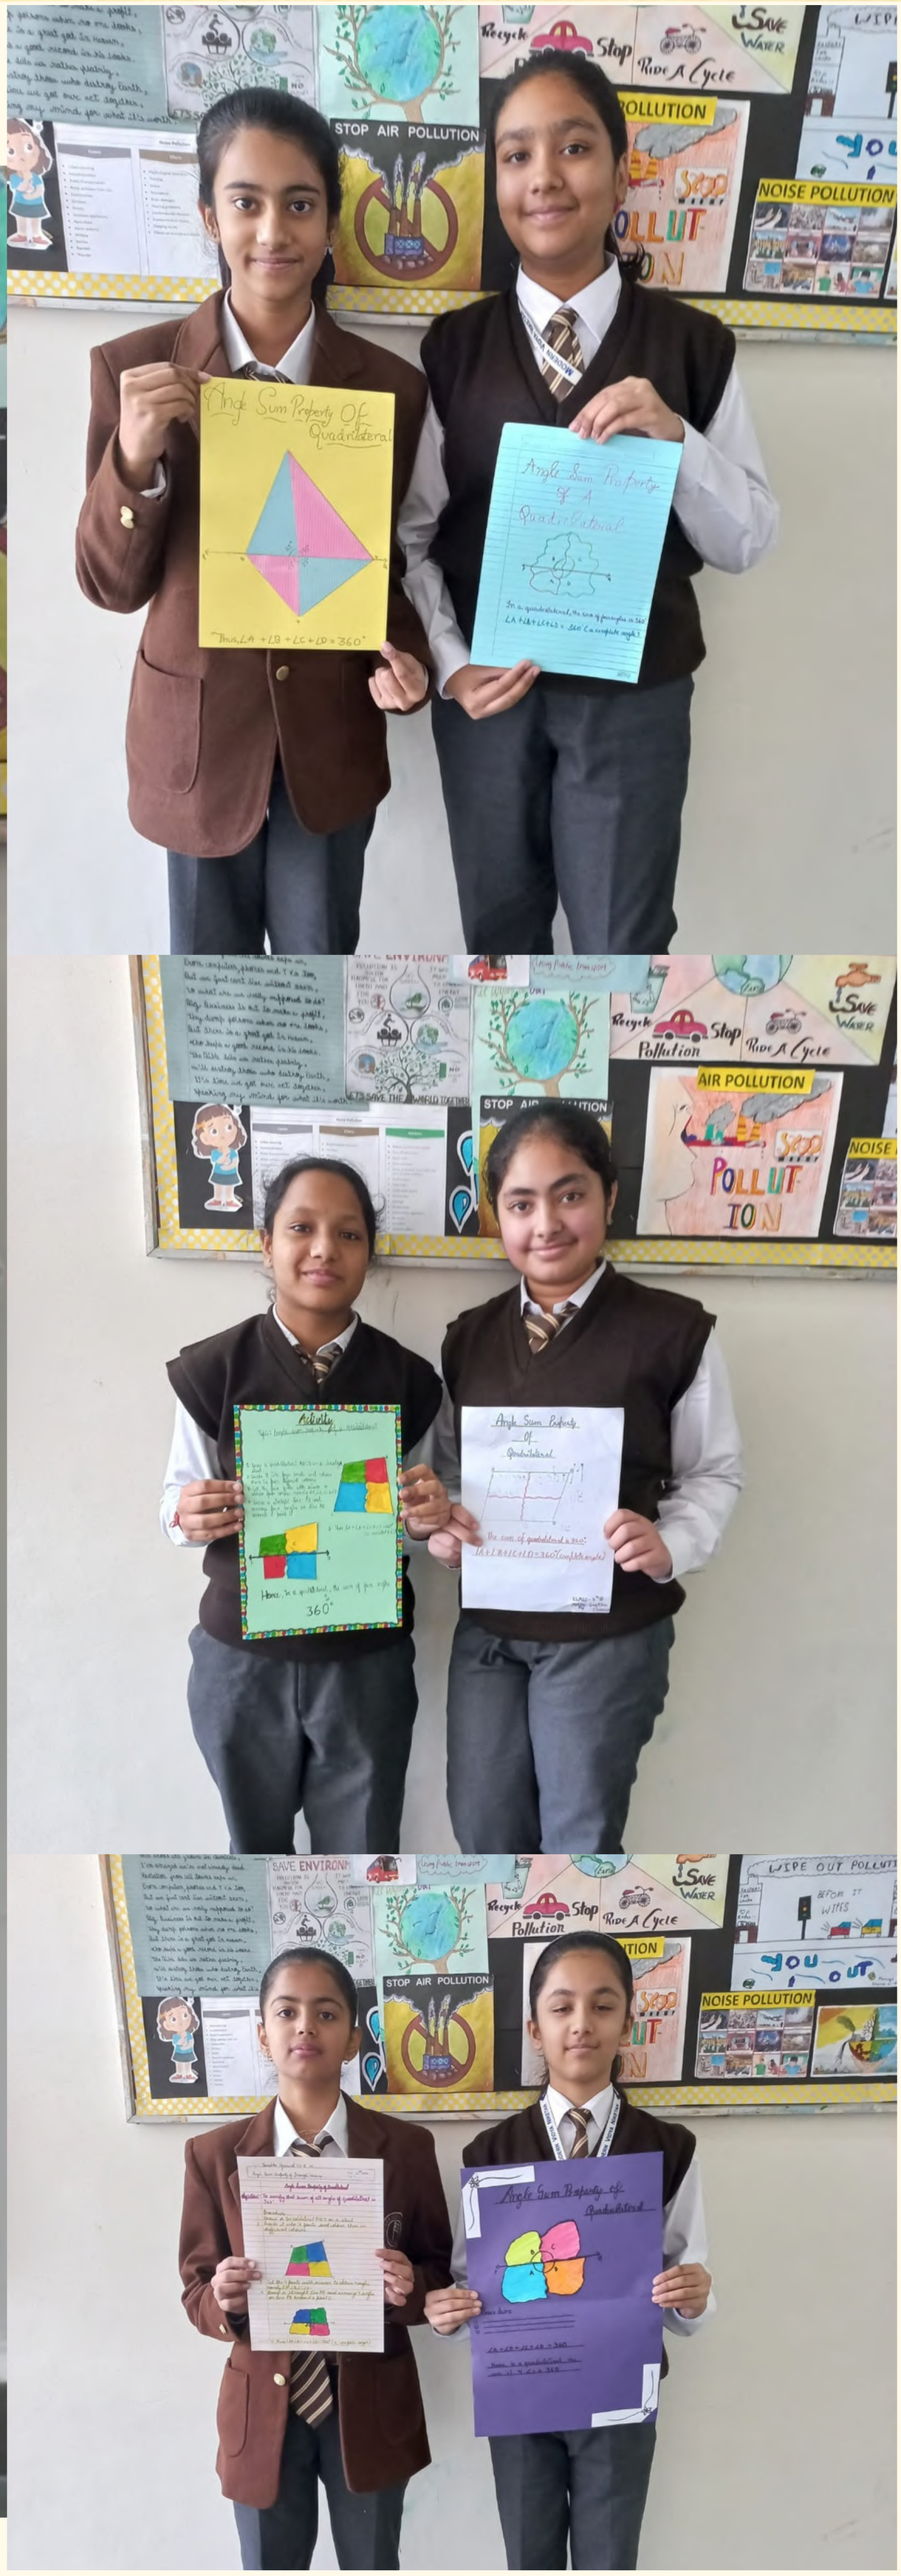
MATHS WEEK

Learning by doing is the best practice of all educational methods.Students understand the concepts better if they do it practically.

The students of Class VII learnt the Angle sum property of a Quadrilateral in an interesting and amusing way. They used a paper Quadrilateral and made cutouts of all 4 angles and arranged these cutouts at a point on drawing sheet in such a way that they formed a complete angle i.e. 360 degrees. Students showed their creativity and interest to learn in this engaging cutting pasting activity.



Angle Sum Property of Quadrilateral
Objective- To verify that sum of all angle of quadrilateral is 360°
Procedure
1. Draw a quadrilateral ABCD on a sheet
2. Divide it into 4 parts and colour them in different colours
3. Cut the 4 parts with scissors to obtain 4 angles namely ∠A, ∠B, ∠C, ∠D.
4. Draw a straight line PR and arrange 4 angles on line PR and mark a point O.
∴ Thus ∠A+∠B+∠C+∠D=360° (a complete angle)



Angle Sum Property Of Quadrilateral
Thus, ∠A+∠B+∠C+∠D=360°

DIWALI CELEBRATION

A Joy That's Shared Is A Joy Made Double

The Essence of Share & Care was well celebrated on the occasion of Diwali by the students of MVN 17.

Our students felt privileged to visit MVN, Khambi, that aims to empower children from economically weaker sections of the society by providing them opportunities to help themselves to be literate and skilled citizens of India. To make this visit extra special, each student of Class IX, MVN-17, presented a gift, wrapped with their love and affection to the tiny tots of MVN , Khambi. The toddlers' smile was the return gift of our students' efforts. The moment was a soul-stirring experience.

There is no doubt that education plays a very important role in bringing values among children but when it is beyond classrooms in the form of such trips, it makes them good and responsible human beings. Our students returned with a sense of conscience and true meaning of Diwali.
