### EDITION – I

(APRIL- JUNE 2021)

# School NEWS

*Victory is always possible for the  
person who refuses to stop fighting.*

*Dear Parent / Student*

*Modern Vidya Niketan is an incarnation of self respect, love, affection, sensibility, responsibility and compassion which puts the students into a state of flow and makes them genuinely want to learn. We recognize, appreciate applaud and foster the fine blend of sensibilities in a child changing a negative outlook from drab and demoralized to bright and expectant. The school attains its eminence in the first place through the achievement of children. All these I believe spurs higher growth and enterprise in children. It has been an expectant stimulating beginning of the new session 2021-2022 interspersed with engaging activities, assemblies, Creative clubs and Book week. We are sure that the positive attitude, hard work sustained efforts and innovative ideas exhibited by our young learners showcased in the Newsletter pics will surely stir the mind of the readers and take them to the real world of unalloyed joy and pleasure.*

*Forging ahead with the belief that the heart of education is the education of the heart, I would like to encourage all my students to nurture the habit of reading for it is second to none. Regular reading is a natural therapy to reduce stress and balance our thought processes. Reading is a positive habit that enriches the vocabulary, enhances the analytical skills and helps to become better at conversations. As quoted by Oscar Wilde "It is what you read when you don't have to that determines that you will be when you can't help it" clearly highlights the importance of reading. So dear children, the effects of reading are cumulative – a practical way to approach it is to determine your reading goals and have the willingness to read and grow in the process.*

*Ms. Sumita Banerjee*

*(TGT English)*

# FEAR ZONE – HOW TO HANDLE IT

*We all are going through very tough times of our lives. This pandemic has created huge disruption in our daily routines. We all are trying hard to cope up but it is tough to keep ourselves stress free at times. With so many mis-happenings around where people are even losing lives, we all are frightened for the safety of our near and dear ones. So there is a FEAR ZONE around where we are feeling helpless and full of uncertainty. The media and daily updates are increasing the fear in our minds. Many of us are over thinking, having sleep problems, bad mood and lots of stress.*

*Is there anything that we can do to get away from this fear zone? Let me give you some options.*

*Learning zone: As we are spending more time at homes with our family, we may spend some time in the learning zone by learning the importance of things usually taken for granted, like our family and friends, our homes, our helpers, etc. By showing gratitude for what we have, we can move away from fear zone at least for some time.*

*Growth zone: Have a close look at yourself and see how your personality has improved in the last one and half year! Don't you think you have become mentally stronger, more patient, more skillful and even more responsible? This is the growth of your personality. Spend more time in this growth zone by developing empathy and becoming more independent. This will definitely take you away from the fear zone.*

*Action zone: This is the most important and vibrant zone. Take action. Despite being confined in the homes, you still have the option to make a difference by taking some actions for others. Spread good vibes, check on your family and friends, and talk to family members who are stressed out. If nothing, it may create a difference in their day. Please do not just stay confined in your rooms engaging in your own entertainment. Extend the helping hand to family members, interact with grandparents, play with siblings. There may be someone nearby who is taking too much stress. Observe others around and extend a helping hand by listening to them, supporting them. These small acts not only help others around you, but also create confidence and joy in your life and pull you out from the fear zone.*

*Let us all sail through this difficult time together not just by grappling with fear, but by learning, growing and acting to create positive vibes for ourselves as well as for others.*

Ms. Archana Bapat

(Counsellor)

# SPECIAL ASSEMBLIES

*We are what we repeatedly do. Excellence, then, is not an act, but a habit.*

—Aristotle

## A VIRTUAL TOUR OF INDIA

Grade VI-C presented an interesting assembly on amazingly realistic Virtual Tour of India. Sometimes all it takes to uplift your soul is to relax, have fun and go on a vacation in the middle of a hectic schedule but the Coronavirus pandemic has gripped the entire world with fear and forced people to stay at home.

With its grand history and rich heritage, India is home to diverse experiences and ways of life. With the travel ban being imposed all around the world, due to the COVID-19 pandemic, the students of class VI-C took an initiative to explore the depth and expanse of the culture and heritage of Incredible India and let the viewers enjoy beautiful locations digitally and experience the joy of travelling from comfort of their homes. ENJOY THE BREATHTAKING BEAUTIFUL LOCATIONS OF INDIA

# SAVE ENVIRONMENT

*“God has gifted us with Mother Nature who nourishes us at every point....*

*And the responsibility of saving her lies on all of our shoulders.....*

*On World Environment Day, let us promise to fulfil this responsibility!!!”*

World Environment Day is celebrated annually on June 5 by the United Nations under its United Nations Environment Programme (UNEP). The aim of World Environment Day, also known as 'Eco Day' or 'Environment Day', is to spread awareness about the importance of the environment and also the need to protect it for the future generations. The theme of World Environment Day 2021 is 'Ecosystem Restoration'.

A special assembly was conducted by the students of Modern Vidya Niketan , Sec-17 to mark this occasion, stressing on the measures to be taken towards protecting Mother Earth. One of the students recited a poem and expressed his feelings and thoughts on the environment. The main attraction was the skit which showcased the need to conserve our resources and to build a greener world. This thought provoking skit stimulated the awareness about the environment and aimed at enhancing attention and action towards safeguarding it. The assembly culminated with the Anthem of World Environment Day, beautifully sung by the young enthusiasts.

## WORLD ENVIRONMENT DAY

It's not yours,  
not mine,  
It's Ours.  
So, Protect your  
mother who,  
nourish you

# ACTIVITIES GALORE

## EARTH DAY CELEBRATIONS

On the occasion of Earth Day, an array of creative and innovative activities were organized with an objective to sensitize everyone about the need to conserve, reuse, recreate, recycle and revive the resources to create awareness to save our planet. The students of Class 6 planted saplings in small pots and created a miniature garden for their study tables. Students of Class 7 used waste materials innovatively to craft out useful products like wall hangings, bookmarks, cards, wooden pencil boxes, photo frames, fruit baskets, piggy banks, pen stands, paper dolls, cloth bags etc. It was a great learning experience for one and all.

Let us not forget that the earth is the holiest place in the universe and loving it and loving life is the way to generate positive vibrations.

# FAMILY DAY CELEBRATIONS

Families are the inspiration to reach great heights and comfort when we occasionally falter. There is no doubt that it is around the family and the home in that all the greatest virtues... are created, strengthened and maintained.

Family Day was celebrated by the students of Middle Wing of the school in a very unique and interesting way. With little to no travel happening at the moment, the families of class VIII students took a mini break and stay-cationed at homes in tents in their balconies, courtyards, rooftops and terraces. All members of the family came together in the tent for a game of ludo, chess, carrom, scrabble etc. Students were amazingly creative and innovative to replicate an outdoor camping environment in their homes. Students of class VII designed their house name plates to give a new and novel identity to their abodes where they are spending the maximum time during the ongoing pandemic. The students of Class VI also exhibited their innocent love, affection and warmth for their families by crafting and decorating collages of family pictures taken in good times. International family Day actually reminds us that all the relationships in the world will remain sweet and pleasant only if they are given care, time and attention. The memories we create with our family are the masterpieces crafted on the frame of our mind which we cherish all the time.

Indoor

Campaign

# MOTHER'S DAY CELEBRATIONS

*“A Mother is she who can take the place of all others,  
but whose place no one else can take”*

Mother's Day is a special day for all children and mothers as it celebrates the bond of love and affection that is everlasting. Mothers are the emotional backbone of the family, who have the magic touch to heal all wounds and make all things beautiful. The day is celebrated to honour the contribution of mothers, acknowledge the efforts of maternal bonds and the role of mothers in our society. She is the epitome of love, affection, sacrifice and generosity. Her presence in the world provides solace to the suffering of humanity. Her smiling face removes all sorrows and frets of the world. Thoughtful self-composed Hindi poems were written on a scroll and sung by the young, enthusiastic students of Class VIII. Students of Class VII prepared magnificent photo frames and those of Class VI crafted Wall Hangings that made the day the most memorable and affectionate for all the mothers. Mesmerising Poem Rendition by Piyush Rawat, Yatika and Anushka of Class VIII captivated everyone's heart.

## CELEBRATING THE EVERLASTING BOND OF LOVE & AFFECTION

# NATIONAL ENDANGERED SPECIES DAY

*“Only if we understand can we care.  
Only if we care will we help.  
Only if we help shall all be saved.”*

-- Dr. Jane Goodall

Modern Vidya Niketan, Sec-17 believes that ‘Educating the mind without educating the heart is no education at all’. The mentors took up National Endangered Species Day as an opportunity to raise compassion and awareness among children about endangered species and wildlife. It gave us the chance to increase our young ones’ knowledge about them. They were also apprised about how to bring awareness among the public that can become key steps to save the precious lives. The little hands of Grade VI took the ideas to implementation and made some beautiful animal masks, such were the efforts that the masks almost came to life. Grade VII Students did their best as the skilful hands made striking functional bird feeders. The activities added zest to the day and the significance of the event was well noted and understood.

# BOOK WEEK CELEBRATIONS

## Read - A - Ghon

24<sup>th</sup> May 2021 - 28<sup>th</sup> May 2021

*“If you wish to renew your Mind – READ and allow it to Dream, for a book is a magical thing that lets you travel to far-away places without ever leaving your chair.”*

To celebrate the joy of reading books and enlarge the child's world,

Modern Vidya Niketan, Sector-17 organised a BOOK WEEK for Middle Wing from 24<sup>th</sup> May to 28<sup>th</sup> May 2021 to give wings to the mind and flight to the imagination.

# BOOK WEEK DAY 1

*“Fill your house with stacks of books, In all the crannies and all the nooks.”*

## AUTHOR’S ALLEY~ THE INITIATION

Modern Vidya Niketan, Sec 17, Faridabad celebrated the week (25<sup>th</sup> May-29<sup>th</sup> May) as the Book Week, **Book-A-Thon 2021** is a gentle effort to encourage the spirit of reading among the students.

The day one of this special week started by understanding the elegance, grace and unique writing styles of different authors. Students of Class VIII sowed the seeds of Book-A-Thon by compiling the journey, from ordinary to extraordinary, of three of the best-known authors of all time; Gerrald Durrell, William Shakespeare and H.G. Wells. VIII A was soaked in the goodness of ‘My Family and the other Animals’ by Gerrald Durrell, VIII B was amazed to know about the twisting tale and power packed dialogues of ‘The Merchant of Venice’ by William Shakespeare and VIII C wondered the possibility of the hair-raising Sci fi, ‘The Invisible Man’ by H.G. Wells. The life stories and the monumental works of these great authors motivated the students to plunge into the stellar world of books.

*“Books are the quietest and most constant of friends; they are the most accessible and wisest of counselors, and the most patient of teachers.”*

Children’s Book Week is the annual celebration of books for young people and the joy of reading. Established in 1919, Children’s Book Week is the longest-running national literacy initiative in the country. It helps introduce children of all ages and their parents to the pleasure of reading and the worlds that exist between the covers of great books. Classes 6 and 7 also celebrated ‘Book Week’ to offer the joy of reading books and to encourage the students to explore these treasure houses of deep knowledge. DAY 1 commenced with AUTHOR’S ALLEY – THE INITIALIZATION. Children of Classes 6 and 7 were acquainted with the life, times and prominent works of Jules Verne and Chris Van Allsburg respectively through a PowerPoint presentation.

# BOOK WEEK DAY 2

*"You can't use creativity. The more you use it, the more you have."*

**-- Maya Angelou**

## INGENUITY AT WORK- ARTFUL CRAFTISTRY

'The Artful Craftistry' was celebrated at Modern Vidya Niketan Sec-17 as the second day activity of a week long Book-A-Thon. After a fair introduction of the famous books on the first day of the book week, the young readers were all set to bring the characters to life in the form of bookmarks, posters, digital images of characters, book jackets and sketches. Now, their favourite characters would be all around them in various forms of creativities to remind them and invite them back into the beautiful book world. It was a treat for the eyes to see their innovative ideas transforming the virtual classrooms into fantasy land; the power of reading was visible in their presentations and in their beaming smiles, now, they are eager to unfold the treasures of the third day in 'The Knowledge Tree'.

*“Imagination is the beginning of creation. You imagine what you desire, you will what you imagine, and at last, you create what you will.”*

Creativity is an area in which younger people have a tremendous advantage, since they have an endearing habit of always questioning past wisdom and authority. Day 2 of the Book Week commenced with ARTFUL CRAFTISTRY. The festivities were supplemented by the Grade 6 students with their explicit yet whimsical sketches of the author Jules Verne and characters from his books. The celebration of the day was summed up by Grade 7 students who incited our imaginations by digitally revamping the covers of various books of Chris Van Allsburg.

# BOOK WEEK DAY 3

## THE KNOWLEDGE TREE~ THE CONSTRUAL

Modern Vidya Niketan Sec-17 continues to celebrate the legacy of the authors and their works as it completes the third day of **the Book-A-Thon 2021**.

An author, who carves out exceptional stories and kindles the fire of knowledge, is the **root**, holding together the **soil**, parallel to the entire world. These roots giving rise to **trees** that are the books, branching into several **characters**. Each branch has its own variety of colors, synonymously, their **characteristics**.

These associations were expressed pictorially by the creative students of class VIII in the form of 'The Knowledge Tree' on the 3<sup>rd</sup> day of the book week. It was a tribute to the authors who have been holding the world together for centuries through their work.

## CURIOUS VOICES- EXPRESSING THOUGHTS

*You should write because you love the shape of stories and sentences  
and the creation of different words on a page.*

Writing comes from reading, and reading is the best teacher. Reading allows us to see and understand the world through the eyes of others. Everybody is talented because everybody who is human has something to express.

Day 3 of the Book Week commenced with EXPRESSING THOUGHTS. Students of Class 6 got vocal on and about their favourite character assuming themselves in their place and students of Class 7 wrote an anticlimax to their favourite book using their powerful thoughts.

# BOOK WEEK DAY 4

*When we give students the opportunity to acquire a robust vocabulary, we give them the key to unlock the door to comprehension.*

## WATCH YOUR WORDS- MIND BENDER

The students of Class VIII showcased their linguistic skills in the quiz – ‘Watch Your Words – Mind Bender’ on the day 4 of the book week, **Book-A-Thon**. The quiz was a display of enthusiasm and energy. They learned, asked, answered, some won and some lost the game too but what has remained with them is the experience of the game and curiosity to know more. The young readers are now keen to share their experiences of the book week with the other sections on day 5 which would be the culmination of the book week - **“Two Way Street- Synergism”**

## VOCABULARY CAPSULE

“You can't build a vocabulary without reading. You can't meet friends if you ... stay at home by yourself all the time. In the same way, you can't build up a vocabulary if you never meet any new words. And to meet them you must read. The more you read the better.”

Improving one's vocabulary is not a daunting task. To give students a break from traditional classroom learning, there is a dire need to revive the quiz culture and technology can act as a facilitator. Quizzes are interactive platforms where students not only participate but gain knowledge and seek opportunities to excel.

DAY 4 of READ-A-THON commenced with VOCABULARY CAPSULE. It proved to be an enriching and fruitful day for the eager learners. Students of Class 6 enjoyed I SPY WITH MY LITTLE EYE while those of Class 7 were intrigued by

PICT-IDIOM-O-GRAPH. It was a great learning experience and the students enjoyed it thoroughly. The quiz left the students yearning for more.

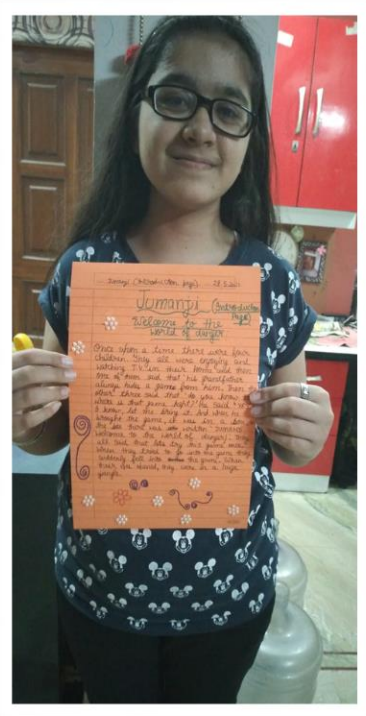

# BOOK WEEK DAY 5

*"There is no real ending. It's just the place where you stop the story."*

It was a week of flurry and excitement, with the children being fruitfully engaged and getting exposure to literature. The week long extravaganza, full of fun and learning, ended with a wide range of activities. The students showcased their creativity and exhibited their talent. The enthusiasm and fervour among students could be witnessed through their active participation.

We extend our heartiest gratitude to the parents and students for their cooperation and contribution to make this event a success. Well done students! Keep reading, as Sir Francis Bacon said 'READING MAKETH A FULL MAN'.

# ANTI-TERRORISM DAY

Class VIII observed the Anti-Terrorism Day on 21<sup>st</sup> May. They not only quoted anti terrorism slogan but also depicted the stories of national heroes and highlighted the suffering of common people showing how it is prejudicial to the national interest.

# ENVIRONMENT DAY CELEBRATION

*"Let's nurture the nature so that we have a better future"*

World Environment Day is celebrated on 5th June and the theme of World Environment Day 2021 is 'Reimagine. Recreate. Restore.' as this year marks the beginning of Ecosystem Restoration. Most environmental problems have cascading effects with one issue leading to the other and some are also interconnected. It is to be noted that most of the damages are anthropogenic. The only solution lies in planting more and making earth green.

We at Modern Vidya Niketan , Sec- 17, consider environment as a matter of vital importance. On the occasion of World Environment Day, an array of activities were organised to sensitise the young minds and to contribute to raise environmental protection awareness among the students. Our young crusaders planted saplings, made bird feeders and designed posters. Through these activities they pledged to make this world greener and to take earnest initiatives to heal the environment.

# INTERNATIONAL YOGA DAY CELEBRATION

*“Yoga is the journey of the self, through the self, to the self.”*

Yoga plays a crucial role in promoting health in a holistic manner by improving physical, mental, emotional and spiritual health. Yoga can be termed as a one-size-fit-all. Solution to fight stress and also alleviate other ailments including depression and anxiety. It is not about exercise but to discover the sense of oneness with yourself, the world and the nature. It embodies unity of mind and body; thought and action; restraint and fulfillment; harmony between man and nature; a holistic approach to health and well-being.

From time immemorial, it has helped bring greatness to the lives of many. It is a treasure that has been inherited thus far and must now be imparted for the benefit and welfare of future generations to come.

On the occasion of International Yoga Day on 21st June , a three day Online Yoga Camp from 19th June to 21st June was organised for the Students of Middle Wing, which saw impressive participation from all energized students in huge numbers .

# WORLD MUSIC DAY CELEBRATION

No matter what mood one is in, music always uplifts it. Music has a universal language. Even if one is not able to comprehend the words/lyrics, the melody touches one's heart. The students of MVN celebrated the World Music Day by giving mellifluous renditions of their favourite numbers and enthralled the audience. Their mellifluous song resonated in hearts and minds of the audience long after the performance was over, much like Wordsworth's "Solitary Reaper"

*"Where the music in my heart I bore, long after it was heard no more."*

# YOUNG EXPLORER SERIES

MVN is delighted to announce the commencement of YOUNG EXPLORER SERIES, a platform that offers an opportunity to foster the development of skills such as experimentation, critical thinking, problem solving, self-expression and independent enquiry through the medium of Science by way of short videos and animations. It is aimed at encouraging the enthusiastic students to increase their inquisitiveness from an early age and build their observational and logical skills while undertaking an activity. We firmly believe that children are never too young to be exposed to the scientific methods and absorb the learnings into their practical life.

The main goal of the YOUNG EXPLORER SERIES is to create an open web based community, a privileged forum for sharing ideas and diffusion of the results and the development and improvement of scientific literacy by extended use of investigative hands-on experiments based on learning of Science and its applications.

# THE BRAVURA

AIMING AND ACHIEVING IS OUR MOTTO AND TRADITION !!

With immense sense of exhilaration, we present the path breaking achievements of the school and its students to you.

## SATURDAY FUN CLUBS

### EINSTEIN CLUB

A budding Scientist from Einstein Club, Pranjal Singh Tanwar of class VIII A gave an engrossing presentation on CURIOSITY ROVER. Rovers are typically created to land on other planets via a lander-style spacecraft, tasked to collect information about the terrain, and to take crust samples such as dust, soil, rocks, and even liquids. They are essential tools in space exploration. The session was educational and insightful.

Einstein club students engaged themselves in spectacular activities of Inflating a balloon with carbon dioxide and wrote secret messages using Invisible ink. The concepts of science are best learnt through such amazing experiments and demonstrations.

# RAMANUJAN CLUB

## CALENDAR PE CHARCHA

The members of Ramanujan Club learnt to see different patterns in calendars during this session. The concept of arithmetic progression was elucidated through this activity. Students also made 1000 year calendar which can be used to tell the day on any date in a span of 1000 years. It was a thoroughly gratifying experience for the students.

## FUN OF FINDING SQUARES USING DIAGONAL METHOD

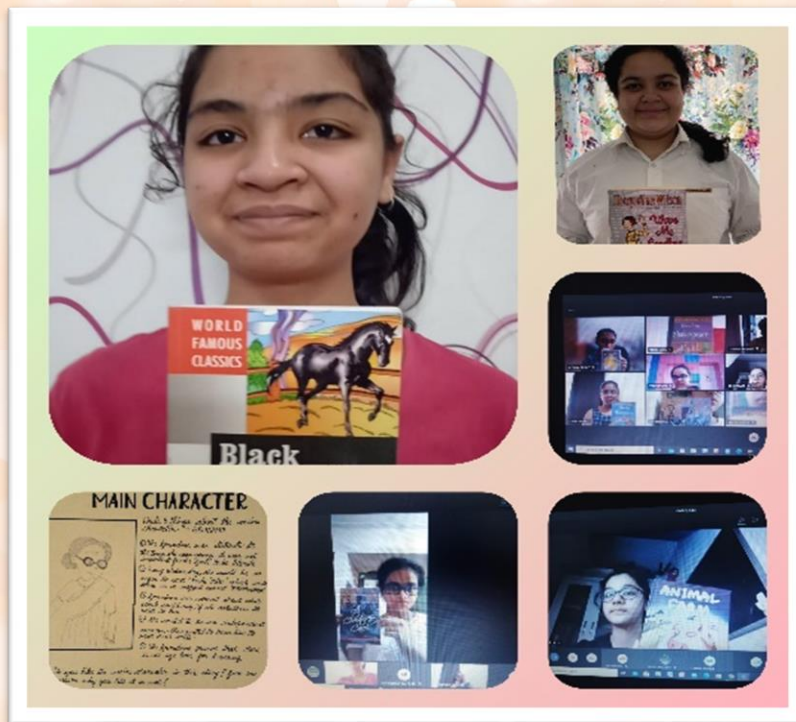

A bit beyond perception's reach  
The numbers and the diagonals I see  
These are two locked boxes  
Each containing the other's key.

# LITERARY CLUB

## TODAY A READER, TOMORROW A LEADER

To groom our young readers to be leaders of tomorrow, the Literary Club for class 8 held a story reading session. The students exhibited their favourite books from their personal library. A short story by eminent contemporary writer, Sudha Murthy was read and a short video of the same was shown. The session concluded with a character sketch activity.

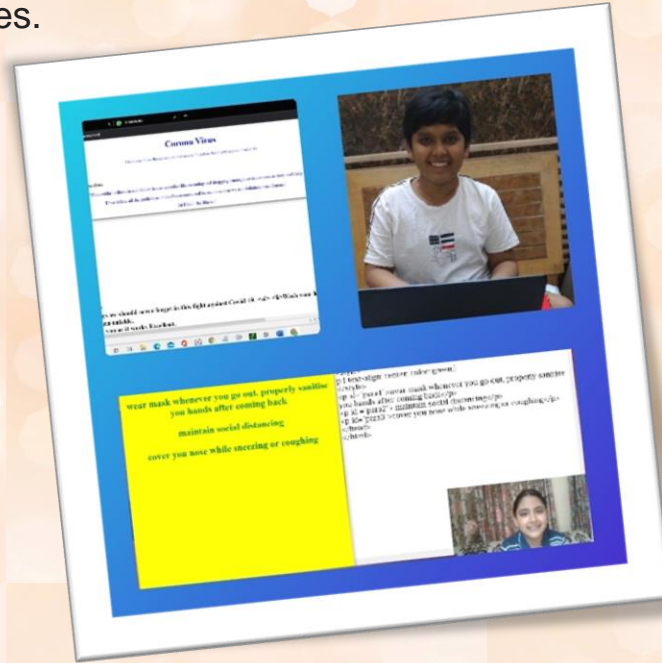

Writing short stories is the best way to pour our heart out in a meaningful way. The budding writers of Literary Club showcased their creativity and imagination through their short stories. Fiction based on real life to holidaying of Martians on Jupiter, the universe became super realistic and incredibly fantastic in story writing sessions in the club class.

# SUNDAR PICHAI CLUB

The students of Sundar Pichai IT club had a session where they learnt coding and tricks of computer which makes working easier. They also learnt CSS which helps to make more interactive webpages.

## E- POSTERS -ONE STOP SOLUTION FOR MASS CAMPAIGN

Digital poster are the most effective way to spread mass awareness and reach the target audience within no time. Sunder Pichai Club students learnt to incorporate multimedia, zooms, and transitions in their customized posters to make them a more meaningful visual art form.

# TANSEN CLUB

The Club had a euphonious session where the basics of Sargam and Swar were taught. The same was interpreted in the Instrumental club where students learnt to play Sargam on guitar and synthesizer. Also, the singing of SargamGeet was taught.

## MUN CLUB

A training session was conducted to prepare the students to enhance their public speaking skills by making them focus on the content, voice modulation, confidence and how to connect with the target audience.

A brief introduction highlighting the significance of MUN was also given.

Students participated enthusiastically and enjoyed the session.

Humanity is facing Water Crisis. The unequal distribution of the resource has resulted in very wet and very dry geographic locations. 844 Billions around the world live without access to safe drinking water. Water conservation Law was rightfully demanded in the Mock Lok Sabha. The young, dynamic spokespersons of classes VI and VII from MUN Club ( Mock Lok Sabha ) discussed, debated and raised their concerns loud and clear about the grave situation of availability of drinking water across the world .

# UDAY SHANKAR CLUB

Under this club, the students who opted for western dance, learnt the basic steps. The class began with warm up exercises. The students attended the club enthusiastically.

## FITNESS CLUB

*Yoga is essentially a practice for your soul,  
working through the medium of your body*

The students of fitness club began this journey with:Pranayam – Anulom Vilom and Suryanamaskar-Pranamasana,Hastottanasana,Padhatasana,Ashwasanchalnaasana, Santolanasana,Shastangnamaskarasan,Bhujangasana,Parvatasana

The students performed these asanas with precision.

*Run, jog, jump or skip,  
Make sure you do your bit,  
To stay healthy and fit,  
Swear by yoga or aerobics.*

To stay fit as fiddle, the energy packed athletes and sports stars of classes VI, VII of fitness club are learning new techniques and ways to stay healthy. They are learning about the significance of nutrition, sleep patterns, immunity and meditation in life.

## DRAMATICS CLUB

The Dramatics Club for the week included teaching students about the basic elements of drama like voice modulation and expressions, introduction of three main "ras"; Hasya, Shringaar, Karun.

The students were carefully guided to be able to read and enact the different kinds of emotions. They learnt how to work together and help each other through this amazing process of gaining knowledge of drama arts.

## MF HUSSAIN CLUB

The students of MF Hussain club learnt OP art, short for Optical Art, which is a style of visual art that uses Optical illusions. Students used shapes, colours and patterns in special ways to create images that looked as if they were moving or blurring. Their creations gave the impression of movement, hidden images, flashing and vibrating patterns.

Pencil Shading plays a major role in realistic art. The incipient artists from classes 6 and 7 are taking training to define portrait making as an art. They are learning to show the depth in the subject or the drawing. Drawing is the imaginative piece of art on the two dimensional material while the real subject is three dimensional with values ,emotions and contrast Portrait shading is a technique which takes your drawing to the next level, giving it a realistic appeal.

Portraits are effective and compelling when they convey the emotions of the person. Students are learning to make strong portraits which will captivate the viewers and will become pride possessions for their subjects
